ABOUT WIN HOUSE

For over 55 years, WIN House is a safe haven for women, children, and non-binary individuals to flee gender-based violence.

Across our three shelters, we foster resiliency and stability in our residents through forward-thinking funding models and programming.

Our low-barrier approach means we address both the essential and complex needs resulting from abuse, including poverty, home and food insecurity, and addiction.

With unwavering commitment to our shared mission of a life free from violence, we pioneer collaborative efforts with our community partners and actively seek to foster unity among gender-based violence organizations. ***Until They're Safe. Without Exception.***
